## Three spares down-and none to go!

The children are tired, mother is all in, dad has run out of spares as well as patience . . . and there is a storm on the way.

Forty years ago this scene was all too familiar when tires were short-lived and unreliable. Today's automobiles earry only one spare tire which is rarely needed on a family onting. What climinated the 'extra' spare? Synthetic rubber because it has made possible dependable, puncture-resistant tires that defy wear for tens of thousands of miles.

For automobile tires and for rubber products in the home and in industry ... synthetic rubber is better - that's why half of all new rubber used in Canada is . .
